

# The Creative Curriculum® Kits for Infants, Toddlers & Twos

## Enjoying Stories and Books (Infant)

Each of our curriculum kits for infants, toddlers, and twos is designed to support a specific classroom experience. This book collection is specially designed to support infants as they learn about and explore books. Offering books with high-contrast images and single images makes it easy for the littlest learners to focus on the pictures on each page. Soft toys and puppets are also available to cuddle as you share stories together.

Add these books to a low shelf or browser box for infants to explore independently. And don't worry if they mouth the books — this is how young children learn about and explore the world around them! And many of the books and materials in this collection are washable.
