

The Creative Curriculum® Kits for Infants, Toddlers & Twos

Enjoying Stories and Books (Set 2 with Puppets)

Each of our curriculum kits for infants, toddlers, and twos is designed to support a specific classroom experience. This book set has a variety of books including classic children's stories, music-and-movement books, books that explore the senses, and books that depict real-life children and families.

This collection makes a wonderful addition to your classroom library. Invite the children to copy your motions as you share one of the included sign-language songbooks together and create your own motions to go with other classic books. The included puppets can be used to bring stories to life and to create and share your own story.
