

The Creative Curriculum® Kits for Infants, Toddlers & Twos

Imitating and Pretending

Each of our curriculum kits for infants, toddlers, and twos is designed to support a specific classroom experience. This kit is specially designed to support young children as they begin imitating things they observe and as they begin pretending in their play.

Some of the first imitating and pretending experiences that children engage in involve eating and taking care of babies because these are the activities children observe in their everyday life. The healthy food options and cuddly baby dolls included in this kit enrich these experiences. Baskets are also included to make it easy for children to fill and carry around their items, and the photo blocks are perfect for displaying family and class photos.
