

The Creative Curriculum® Kits for Infants, Toddlers & Twos

Tasting and Preparing Food

Each of our curriculum kits for infants, toddlers, and twos is designed to support a specific classroom experience. The tools and materials in this kit support children as they discover how they can help prepare their own food.

The tools and utensils that are included are perfect for small hands as they pour, mix, and spread ingredients. Invite the children to use these tools to help prepare snack by spreading cream cheese on a cracker or invite them to use the measuring tools to help prepare a special recipe. The included trays help keep each child's workspace defined and organized.
