

The Creative Curriculum® Kits for Preschool

Language & Literacy Kit

As preschool children's language and literacy skills develop, they begin to engage in longer conversations recognize letters and start connecting letters to the sounds they make. This kit provides a variety of hands-on materials for children to explore and discuss.

Language and literacy should be represented in all areas of your classroom to create a literacy-rich environment. The materials in this kit can be added to any area in your classroom but are an especially good fit in the Library area where children can refer to them as they practice their writing skills. The variety of sensory experiences offered in these products encourages children to explore letters through touch and conversation.
