

# Entry Assessment Survey

The Entry Assessment Survey is a tool that provides teachers with an abbreviated set of *GOLD*® objectives, helping them to focus on the areas of development and learning that are most important at the beginning of the school year. Opting in allows a teacher access to these surveys; opting out removes access to them.

1 To enable or disable a survey, select **ENTRY ASSESSMENT SURVEY** from the Administration sub-navigation.

2 Each survey is set to Opt Out by default. Select the checkbox under **OPT IN** for any surveys you want to opt your teachers into.
