Accessing the Practice Environment

The Practice Environment allows you to practice using all of the features of MyTeachingStrategies® without affecting the data of the children in your class.

To access your Practice Environment, select **LOG IN TO PRACTICE ENVIRONMENT** from the settings drop-down menu.

The screenshot shows the MyTeachingStrategies user interface. At the top, there are navigation icons for Teach, Assess, Develop, Report, and Family. The user is identified as Megan Teacher, with a notification badge for 15 messages. The main content area includes a welcome message, a 'What would you like to do?' section with buttons for 'Add Documentation', 'View Documentation', 'Checkpoint By Class', and 'Documentation Status' (highlighted with a blue line), and a 'These items need your attention:' section with a list of messages. A right-hand sidebar contains user profile options, including 'Log in to Practice Environment'. A modal window is overlaid on the screen, titled 'MyTeachingStrategies® Practice Environment', featuring navigation icons, a login form with 'Username' and 'Password' fields, a 'Login' button, and a link for 'Forgot password ? / ¿Olvidó su contraseña?'.
