# Snapshot (Birth through Third Grade)

The Snapshot (Birth Through Third Grade) Report, generated only from checkpoint data associated with the objectives for development and learning for birth through third grade, displays a group's assessment results at a given point in time, enabling you to see which children are below, meeting, and exceeding the widely held expectations for each area. The report can be organized by entity, by colored band, and, for teachers, by class. You can view it in HTML, as a PDF, or in Excel.

Note: At the beginning of the year, it is appropriate for a student's skills and abilities to fall below widely held expectations for his age or class/grade because he may not have received instruction for that level. In Kindergarten, for example, we would expect him to come into Kindergarten with those skills represented just before the purple color band begins, or where blue meets purple but doesn't overlap.

If included, the report output will include a Profile of Children, which will state how many child records had enough data to be included in the report and a breakdown of demographic information.
