My**Teaching**Strategies[®]

How-to Find GOLD® Specific ID's

At Teaching Strategies, we take privacy and Personally Identifying Information (PII) seriously. PII is any information that can distinguish a child's identity, either directly or indirectly, such as the child's name, birthdate, gender, or a family member's address. When sharing information about a child or teacher in your program or organization with a Teaching Strategies employee, we request that you send us a **GOLD® secure ID** either in the form of a Child ID, User ID, Class ID or Site ID. When you provide the correct GOLD® secure ID numbers and a detailed description of your question, we will be able to replicate the steps you've taken.

Please **do not send** screen shots, a child's name, birthdate, or other easily identifiable information.

How to Find a GOLD[®] Child ID

- 1. Navigate to the **PROFILE MENU** and select ADMINISTRATION.
- 2. Select CHILDREN.
- 3. Copy and paste the CHILD ID needed.
